

IBRAHIM ABDULMALIK

FRONTEND WEB DEVELOPER

+234 701 376 5182 | adeyemimalik207@gmail.com | Nigeria

ibrahimportfolio.name.ng | github.com/Alade017

PROFILE SUMMARY

Frontend Web Developer with a growing portfolio of self-built projects using HTML, CSS, and JavaScript, including multi-page prototypes and business-style websites. Comfortable translating UI/UX designs into clean, responsive, cross-browser-compatible code. Background in visual design sharpens attention to layout, hierarchy, and detail. Actively seeking a first professional frontend developer role to apply these skills on real-world products and grow alongside an experienced team.

TECHNICAL SKILLS

- Languages & Core: HTML5, CSS3, JavaScript (ES6+)
- Practices: Responsive Web Design, Multi-Page Site Structure, Cross-Browser Compatibility, UI/UX Implementation
- Tools: Git & GitHub, npm, browser DevTools

WORK EXPERIENCE

Still looking forward to my first professional opportunity as a Frontend Web Developer — see Projects below for hands-on work.

PROJECTS

LinkSync — Self-directed

- Built a website homepage prototype for linking and managing multiple accounts in one place, using HTML, CSS, and JavaScript.

RentEasy — Self-directed

- Built a house-renting and property-listing website concept, using HTML, CSS, and JavaScript.

GlobeQuest — Self-directed

- Built a travel and tours website with multiple pages and features, using HTML, CSS, and JavaScript.

Personal Portfolio Website — Self-directed

- Designed and built a responsive personal portfolio site using only HTML, CSS, and JavaScript (no frameworks); deployed live at ibrahim-abdulmalik-portfolio-website.netlify.app
